

Global Consumables Catalogue - New Manufacture	MLC104
	Date 21 August 2025
	Issued By Rolls-Royce Materials Engineering

This issue of MLC104 is extracted from the Rolls-Royce Global Consumables Catalogue which contains Rolls-Royce approved consumable, non-metallic and proprietary products for use in new manufacture and overhaul and repair.

	<u>Page</u>
Start of Released Consumables	2
Start of Approved Manufacturers	300

At the back of the catalogue the suppliers are listed against their codes, arranged in the following order:

<u>Initials</u>	<u>Region</u>
AM	Americas
AP	Asia Pacific
EA	Europe
GB	Great Britain

Note: You can easily search for items in this pdf document by using the "Find" facility on the toolbar.

It is permitted to use stockists to source products from the approved manufacturers provided the stockist has valid ISO 9001 approval, and the certificate of conformity is traceable to the original approved manufacturer.

Where a listed manufacturer has authorised distributors not listed in the catalogue, these agents can be used.

LOCAL in the supplier column indicates that any ISO9001 approved local source can be used as follows:
Where listed against standard chemicals, e.g. "Hydrochloric Acid SG 1.14", you can purchase the chemical from any ISO9001 approved supplier.

Where listed against proprietary products, e.g. "Tape, Aluminium foil AT 500", you can purchase that named proprietary product from any ISO9001 approved stockist.

Where listed against national specifications, e.g. "Def Stan 80-34 Preservative oil or MIL-PRF-6085", you can purchase from any ISO9001 approved supplier who can release material that meets the quoted national standard.

The technology within this document has the following export control rating/classification; Not Listed.
