

SAFETY DATA SHEET

ALLKEY INTERNATIONAL, INC.
DOCUMENT CONTROL CENTER
UNCONTROLLED COPY

Date: June 5, 2024

Product Name : Huby Swab
Part Number: All Model

1. IDENTIFICATION

Chemical name: HUBY cotton swabs for industrial use.

Recommended use and restriction on use: Cotton swabs for industrial use.

Cotton swabs for industrial use is shaped like: cotton is attached to the one side or both sides of the paper/wooden shaft. This product is for industrial use only.

Do not use other usages. It is not a medical device.

2. HAZARD IDENTIFICATION

GHS Classification

Physicochemical hazards

Self-heating chemicals : Not classified

Corrosive to metals : Not classified

Other hazards are either of 'Not applicable' or 'Classification not possible'.

GHS label elements

Pictogram or symbol : None

Signal word :

None Hazard statements : None

Precautionary statements : None

Other precautions : The product is combustible. Be away from fire.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/ mixture : Mixture

Name			CAS No.	Concentration	Reference number in gazetted list of Japan
Paper shaft	Paper shaft	Cellulose	—	82%	CSCL: Not applicable ISHL: 11-(4)-249
	Paper reinforcer	Amphoteric acrylic resin	unknown	little amount	—
		Cationic starch	56780-58-6	little amount	1-215, 8-118
	Sizing agent	Modified rosin emulsion	unknown	<0.2%	—
	Fixing agent	Aluminum sulfate	10043-01-3	little amount	1-25
	Dye	Azo direct dye	unknown	little amount	—
Cotton wool		Plant natural fiber	-	16%	—
Glue		Polyvinyl alcohol	9002-89-5	2%	6-682

CSCL: Chemical Substance Control

4. FIRST AID MEASURES

If inhaled : If abnormal symptoms appear, obtain medical attention.

If on skin : If abnormal symptoms appear, obtain medical attention.

If in eyes : If abnormal symptoms appear, obtain medical attention.

If ingested : If you feel nauseous or unwell, obtain medical attention.

Most important symptoms and effects, both acute and delayed : No information available.

Self-protection of the first aider : No information available.

Indications of any immediate medical attention and special treatment needed :
Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media : The product itself is combustible. Use ordinary extinguishing method when container/packing gets fire. Suitable extinguishing media: water, powder extinguisher, etc.

Suitable extinguishing media : The product itself is combustible. Use ordinary extinguishing method when container/packing gets fire. Suitable extinguishing media: water, powder extinguisher, etc.

Unsuitable extinguishing media : Not specified.

Specific hazard arising from the chemical : Toxic gas of carbon monoxide, carbon dioxide, nitrogen oxide(s), etc. may generate by fire.

Specific fire-fighting method : Move the movable container to a safe place if safe to do so.

Special protective equipment for fire-fighters : Wear suitable protective equipment (self-contained respirator, etc.).

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures :
Not specified.

Environmental precautions : Not specified.

Methods, materials for containment and cleaning up : Collect the product in a proper container. Dispose of in according to local/national regulations for disposal.

7. HANDLING AND STORAGE

Handling

Engineering measures : Keep away from open flame, high temperature

Precautions for safe handling : Do not process with heating, etc. Seal immediately after every use.

Storage

Safety storage condition : Avoid high temperature and humidity. Store in a room protected from direct sunlight at ordinary temperature. Store away from fire. Store in a dry place after opening.

Safe materials for container : No information available.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure limit : Not established.

Facility measures : Not specified.

Personal protection equipment

Respiratory protection : Not necessary.

Hand protection : Handle after cleaning the hands.

Use of gloves is recommended when abnormality such as skin irritation is noted.

Eye protection : Not necessary.

Skin and body protection : Not necessary.

Hygienic measures : Wash the hands after handling.

9. PHYSICAL AND CHEMICAL PROPERTIES

Color, shape, odor : White shaft and cotton may be slightly colored by long storage. Cotton is attached to one side or both sides of the shaft. Slight special odor exists.

pH : Not applicable. **Boiling point** : No data available.

Melting/freezing point : No data available

Decomposition point : No data available

Flash point : No data available.

Auto-ignition point : No data available.

Combustibility (solid, gas) : Combustible.

Ignition/Explosion limit, Lower limit, Upper limit : No data available.

Vapour pressure : Not applicable.

Vapour density : Not applicable.

Evaporation rate : Not applicable.

Specific gravity (Relative density) : No data available.

Density : No data available.

Solubility : No data available.

n-Octanol/water partition coefficient : No data available.

10. STABILITY AND REACTIVITY

Stability : Stable under normal temperature and pressure.

Possibility of hazardous reactions : Not expected.

Conditions to avoid : Storage under high temperature and humidity may generate microorganisms such as mold.

Incompatible materials : No information available.

Hazardous decomposition products : No information available.

11. TOXICOLOGICAL INFORMATION

ALLKEY INTERNATIONAL, INC.
ENGINEERING SECTION**MASTER COPY**

Acute toxicity (oral) : No information available.

Acute toxicity (dermal) : No information available.

Acute toxicity (Inhalation, vapor) : Not applicable.

Skin corrosion/irritation : No information available.

Serious eye damage/eye irritation : No information available.

Respiratory/skin sensitization : No information available.

Germ cell mutagenicity : No information available.

Carcinogenicity : No information available.

Reproductive toxicity : No information available.

Target organ systemic toxicity (Single exposure) : No information available.

Target organ systemic toxicity (Repeated exposure) : No information available.

Aspiration hazard : Not applicable.

12. ECOLOGICAL INFORMATION

Hazard to the aquatic environment (acute) : No information available.

Hazard to the aquatic environment (chronic) : No information available.

Hazard to the ozone layer : No component of the product is regulated by Montreal Protocol.

Persistence and degradability : No information available.

Bio-accumulative potential : No information available.

Mobility in soil : Expected as low because the product is solid.

Other information : No remarkable change is expected when released in the environment.

13. DISPOSAL CONSIDERATIONS

Residual product : Dispose of in accordance with local/national regulations. Dioxin or such toxic gas will not be generated by incineration of the product. Disposing of the product near fire or in a place easy to catch fire causes fire, etc.

Contaminated container/packing : Dispose of in accordance with local/national regulations.

14. TRANSPORT INFORMATION

International regulations

UN class : Not applicable.

UN number : Not applicable.

UN proper shipping name : Not applicable.

Packing group : Not applicable.

Marine pollutant : Not applicable.

Japanese regulations

Fire Service Act : Not applicable.

Notification of storage/handling as designated combustible substance is possible when treating hundreds or thousands kg of the product, therefore consult with local authority or fire station in such case.

Civil Aeronautics Act : Not applicable.

Ship Safety Act : Not applicable.

Special safety measures : Avoid direct sunlight as much as possible. Confirm no breakage, no corrosion or no leakage before transport. Load the product in a way that does not cause tumbling, falling or damaging. Make sure to take measurement to prevent load shift.

Emergency response guidance No. : Not designated.

ALLKEY INTERNATIONAL, INC.

15. REGULATORY INFORMATION

Industrial Safety and Health Act Substance for labeling, etc. and deliver of documents, etc. : Not Applicable.

(Article 57 and 57-2) and for risk assessment (Article 57-3) Poison and Deleterious Substance Control law : Not applicable.

PRTR Law : Not applicable.

Fire Services Act : Not applicable to hazardous material.

Explosives Control Act : Not applicable.

High Pressure Gas Safety Act : Not applicable.

Ship Safety Act : Not applicable.

Civil Aeronautics Act : Not applicable.

Water Pollution Control Law : Not applicable.

Sewerage Act : Not applicable.

Soil Contamination Countermeasures Act : Not applicable.

Basic Environment Act : Not applicable.

Air Pollution Control Act : Not applicable.

Other information : As self-standards, control of regulated substances is performed for RoHS and laws described above.

16. OTHER INFORMATION

Reference:

- 1) SDS of the product in Japanese (Prepared on Apr. 12, 2011, revised on Feb. 20, 2017)
- 2) Chemical Risk Information Platform (CHRIP)
- 3) Ministry of Environment, Chemical Substance Information Research Support System

Classification was performed according to JIS Z7252: 2014 of Japan. Description was performed according to JIS Z7253: 2012 of Japan.

Quality control of the product is performed based on 'Self-standards for safety and health of cotton swabs'. The SDS was prepared based on SDS of raw materials and published technical data, but not all references have been referred. When using this product, the final decision whether to apply the information provided is the user's responsibility. The SDS is based on the latest references and data which are currently available, but the content may be revised according to the new knowledge obtained.
